

34th
National Conference
CONDENSED MATTER DAYS
17th-19th November, 2026

CMDAYS - 2026

"From Fundamental Science to Future Technologies"

Dept. of Physics and Astronomy
National Institute of Technology Rourkela

ABOUT THE CONFERENCE

The Department of Physics and Astronomy, NIT Rourkela is organizing the 34th National Conference "Condensed Matter Days" (CMDAYS-2026). The scientific program will encompass topics spanning quantum science and technology to active matter, fostering interactions between condensed matter physics and a wide range of interdisciplinary sciences. CMDAYS aims to provide a suitable platform for young researchers and scientists to present their works on experimental, theoretical and computational Condensed Matter Physics. In addition to this trend, **CMDAYS-2026** includes a wide variety of emerging and interdisciplinary areas of Condensed Matter Physics. The conference is expected to achieve a large gathering of Physics Community (more than 200 participants) and Industry personals with ample thought-provoking ideas, discussions and exchange of ideas that will be helpful in creation of sustained research collaborations. **CMDAYS-2026** will include Plenary Lectures, Keynote Lectures, Invited Talks, and Contributory Oral and Poster Presentations.

ABOUT THE ORGANIZER

The **National Institute of Technology Rourkela (NIT Rourkela)** is a premier institution of national importance under the Ministry of Education, Government of India, renowned for excellence in engineering, science, technology, education, and research. Located in Rourkela, Odisha, the institute is committed to advancing knowledge, innovation, and societal development. Established in 1961, the **Department of Physics and Astronomy** is a leading center for physics education and research, offering undergraduate, postgraduate, doctoral, and M. Tech. (Research) programmes. The department has active research programs in condensed matter physics, semiconductor physics, functional materials, soft matter and polymer physics, low-temperature physics, astrophysics, astronomy, and theoretical physics. Strengthening its focus on emerging technologies, the department has recently introduced two new programmes: a B. Tech. in Engineering Physics and an M. Tech. in Semiconductor Devices and Technology, further reinforcing its commitment to interdisciplinary education and cutting-edge research.

SPONSORING CMDAYS-2026

Join Hands for the National Mission

PLATNUM SPONSHORSHIP

Registration for 3 Persons, Display Stall Facility, Food & Registration Kit, Presentation Slot Available, Logo on Banner & Published Materials, Logo in Registration Kit.

₹ 3 LACS

₹ 2 LACS

GOLD SPONSHORSHIP

Registration for 2 Persons
Display Stall Facility
Food & Registration Kit
Logo on Banner & Published Materials

SILVER SPONSHORSHIP

Registration for 1 Person
Display Stall Facility
Food & Registration Kit
Logo on Banner & Published Materials

₹ 1 LACS

₹50 Thousands

BRONZE SPONSHORSHIP

Registration for 1 Person
Food & Registration Kit
Logo on Banner & Published Materials

*18% GST is applicable
